Remarks

This Amendment follows a recent telephone interview. It offers clarifying amendments to claim 1 which do not necessitate a new search, and cancels claims 11 and 12.

Entry of this Amendment under 37 C.F.R. § 1.116 is requested because it cancels claims and presents rejected claim 1 in better form for consideration on appeal.

The remarks made in the Amendment filed on January 31, 2008 are incorporated herein by reference. The Examiner is respectfully asked to reconsider those remarks which, for brevity, will not be repeated here.

Claim 1 has been amended to clarify that "the disk . . . [has] . . . a back surface that engages a front surface of the wall such that the mounting element and the front surface of the wall may exert frictional forces therebetween in a plane that is parallel to the front surface"

For reasons stated in the January Amendment, claim 1 as clarified is not disclosed nor rendered obvious by U.S. Patent 3,006,443 to Siler.

Respectfully submitted,

KEVIN JUMP
